

ART, MINOR

The Art minor enhances a student's ability toward skills and conceptualization development. It promotes creative thinking to visual art that could be applied to many interdisciplinary fields. The Art minor would provide a venue for further skill/talent development.

The objective of the art minor is to provide students with an understanding of studio art and art history, embodied in the practice of art through the study of contemporary visual culture as well as with an appreciation of the formal language utilized by artists. Students will also become aware of the disciplinary methodology and conventions. Students will have the choice of two emphases:

- Studio Art (p. 1)
- Art History (p. 1)

The minor in art will benefit students majoring in any liberal arts discipline with a practical component, including studio art, digital imaging, video and film studies, art history, art criticism, and liberal studies. Students minoring in art will gain a sense of the overall studio art, digital art, and evolution of the history of art, as well as in-depth knowledge of visual art in different disciplines. Students should be sure to check for pre-requisite course requirements and co-requisite requirements.
