

CERTIFICATE IN ARTIFICIAL INTELLIGENCE

Program Learning Outcomes

Graduates of this program will be able to:

- a. Master skills in computational coding and its applications.
- b. Apply GenAI to real-world challenges in a broad range of application domains.
- c. Use machine learning tools to solve real world problems in various domains.

Program Requirements

Code	Title	Credit Hours
CSCI 1300	Computational Thinking& Coding	3
CSCI 2210	Applied AI	3
CSCI 2220	Applied Machine Learning	3
<i>Total Credit Hours</i>		9
