The Hub is Clayton State University's frontline technical support center. We provide technical support for students, faculty, and staff inside and outside the classroom. We also help students access and operate Clayton State applications and resources. We strive to ensure that technology enhances the learning process at CSU.

Services we provide:

- Technical support for computer devices and campus connectivity
- Hardware and software troubleshooting services
- Software installation assistance and troubleshooting
- Workshops and individual assistance with all campus-supported software and training

Hours of Operation

Both in-person and virtual support are available. For current support hours, please visit The Hub (https://www.clayton.edu/hub/).
