The Community, Belonging, and Veterans Center (CBVC) of Clayton State University provides support to Veterans, Active Duty, Reservists, National Guard, and their family members in accomplishing their academic goals. We offer a variety of programs and activities to engage our Veterans and all military-affiliated students as members of the Laker community.

In the CBVC, you can meet other individuals who understand military culture, learn about on and off campus resources, utilize our study area or computers, or stop by and grab a hot cup of coffee and enjoy great conversation. Ultimately, the CBVC staff is dedicated to being there for you throughout your academic career.
